

## Nonprofit data strategies for AI readiness

Access a replay of an in-depth session from the Global Nonprofit Leaders Summit

[Access the replay](#)

Data is the driving force behind AI technology, but identifying the right data sources and knowing how to use them can be challenging. In this in-depth session, learn how to help your customers prepare their existing data or collect new data to lay the foundation for successful AI implementations.

You'll also learn from nonprofit organizations that are using modern data tools and techniques to harness the power of AI and drive their missions forward.
